Search and Assign Content to Your Students

The new Content Search page is your one stop for searching for and assigning content to your students. You can now also assign lessons and flashcards to your students!

- **1.** Under the Main Menu, click **Content Search**.
- **2.** Search for resources.

3. You can now assign resources to your students or launch the content to preview it . Launching opens the content in a new tab or window. You can also print worksheets for the current topic. Worksheets are a great option for students to practice Study Island content, even if they don't have access to Study Island at home.

4. For assigning content: After selecting the resources you wish to assign, click **Assign** Selected Resources. The number of resources you have selected is noted in parentheses.

Note: You can select more than one resource and resources from multiple topics within a subject and assign them all at the same time. As you can see in the screenshot to the left, both "Reading & Writing Whole Numbers" and "Reading & Writing Decimal Numbers" has resources selected. The selected resources within each topic will all be assigned to your students.

However, you CANNOT assign content from multiple grade levels or subjects. Switching grades or subjects will lose any progress you had toward assigning content.

5. Complete the Create Assignment modal. **Resource Settings:**

Assignment Settings:

*Note on Enforce Dates and Activate Assignments

lf	Then
Enforce Dates is off and Activate Assignments is Yes,	Students can access assignment any time after it is created, despite assigned and due dates.
Enforce Dates is off and Activate Assignments is No,	Students will not see the assignment.
Enforce Dates is on and Activate Assignments is Yes,	Students can see the assignment, but cannot access it if the assigned date is in the future.
Enforce Dates is on and Activate Assignments is No,	Students will not see the assignment until the assignment is activated.
