Email Addresses to Allow

Edmentum

Adding an email to an approved sender list ensures that emails from that sender are never moved to the spam folder. When a recipient allows an email address, they are confirming that they know and trust the sender. This tells an email server (like Gmail) to move messages to the inbox directly. Since many Edmentum programs utilize automated emails, we suggest adding our list to your exceptions.

Allowing email addresses: guides for common email providers

- Microsoft Outlook
- Outlook.com
- Gmail
- Yahoo Mail
- Google Workspace Admin (Mobile Device Manager)
