Dear Parent or Guardian,

Our school has purchased a subscription to an online course and curriculum program called Edmentum Courseware. As a part of our subscription, your student can access Courseware anywhere that internet access is available with site-wide security features in place to protect your student’s personal information.

We are excited about the benefits this program can bring to our students, and we encourage you to take advantage of this opportunity. For technical support, please feel free to contact our Courseware Support Team at 800-447-5286 or support@edmentum.com.

Using Courseware from Home

Courseware is completely web-based, which allows students to access the program from any computer with an internet connection and a standard web browser. Unit activity results are automatically recorded for teacher review, including results from activities completed outside of school.

The program consists of courses, and each course is broken up into units. Each unit has activities like pretests, tutorials, practice activities, discussion posts, mastery tests, and posttests.

If your student needs additional support getting logged in and navigating key areas of the program from home, we've included instructions here.
